## CONTENTS № 1/ 2017

### **Radio Electronic Facilities of Transmitting, Receiving and Processing Of Signals**

<b>Yastrebov A. V.</b> Adaptive Matched Filter Based on Power Vector Method .....	5
<b>Korotkov V. F., Zyryanov R. S.</b> Source Type Recognition Algorithm of Radio Emission using Radial Basis Functions .....	12

### **Television and image processing**

<b>Volkov V. Yu.</b> Adaptive Extraction of Small Objects in Digital Images .....	17
---	----

### **Electrodynamics, microwave engineering, antennas**

<b>Kostikov G. A., Terentyeva P. V.</b> Antenna Array with Switchable Radiation Pattern for Mobile Communications Systems.....	29
<b>Grigoriev A. D., Djalilov B.</b> Comparison of Antennas Electrical Tuning Methods for Mobile Applications.....	35

### **Telecommunication systems, networks and devices**

<b>Viet Nguyen Duc, Tamazian A. S.</b> Network Traffic Model Based on Superposition of Single User Requests Flows.....	40
---	----

### **Radiolocation and radio navigation**

<b>Bogdanov D. V.</b> Practice in Application of Wireless Time Scales Synchronization of the Local Positioning System.....	45
<b>Bogdanov D. V., Gayvoronsky D. V.</b> Selection and Analysis of Interface User Structure of the Local Positioning System.....	49

### **Radio-photonic technology**

<b>Zaretskaya G. A., Drozdovskii A. V., Kalinikos B. A.</b> Calculation of the Resonant Frequencies for a Whispering Gallery Mode Optical Resonator .....	56
--	----

### **Microwave electronics**

<b>Savelkaev S. V., Romasko S. V., Litovchenko V. A., Zarzhetskaya N. V.</b> Theoretical basis of simulator-analyzer building-up for microwave amplifiers and oscillators .....	63
--	----

### **Medical devices, environment, substances, material and product control equipment**

<b>Nikiforov S. V., Smirnov B. I.</b> The Module for Predicting Complications after Bone Marrow Transplantation in Children with Leukemia.....	74
<b>Author's Guide</b> .....	80
